COVID-19 UPDATE - January 27, 2021

‘working together to keep each other safe’

We now require that everyone complete active daily screening. This is the most effective way for our business to screen and employers are being ordered to do this by Ministry of Labour Inspectors.

Please click on to the web link below or scan the QR code below, and answer the questions honestly BEFORE you enter the workplace each day.

The Company designed a tool that is easy to use. It takes seconds. Please take a moment to try it or have someone show you how to use it now.

If you have no access to a smartphone or computer, please take a paper-based questionnaire home with you and complete it BEFORE you enter the workplace. The forms are located in the employee entrance. Provide your completed form immediately to your Supervisor upon arrival.

Thank you.
